Opening Day Weekend, Here at Last !

WOW!... Another boating season has arrived and it promises to be our best ever! While other businesses are reacting to these troubled economic times by reducing hours, inventory, employees and services, we at Weaver's know this is a foolish and shortsighted strategy that can only lead to eventual

bankruptcy. We are responding to these hard times by continuing to do what we have been doing since our founding in 1945. Weaver's has been expanding, improving and offering our slip holders and customers more services and amenities than ever.

**Weaver's offers
more for less money!**

NEWSLETTER

You are now reading the inaugural edition of our newsletter, which will provide a way for us to better communicate with you. We plan to publish a new edition every month during the boating season and occasionally during the winter. We welcome your comments, questions and suggestions.

– The Staff at Weaver's

Upgrades for the 2009 Season

Cable TV - formerly offered on a paid subscription basis is now FREE to all in water slip holders. See the office or Dock master for a TV channel guide.

Wi-Fi Internet - also FREE, plus we are upgrading our equipment by installing a Hi-Gain antennae and a repeater for better coverage and signal strength. Your access code is located on your TV channel guide.

Bicycles – are available on a limited basis. See the Dock master to sign one out.

BBQ Grill – Insurance regulations prohibit grills on boats, so we have purchased a propane gas BBQ grill for the slip holders' use. See Dock master for the key and please clean up after you are finished.

Fishing – We now have a fish cleaning station! A stainless steel table with wash down hose is located on the North Pier near Slip # 86. Please clean up after use and place the fish carcasses in the dumpster using sturdy bags.

Gashouse – is now on extended summer hours with an expanded inventory. We have lowered prices on many popular products such as Startron & Spray 9 and invite you to check out our new "Bargain Flea Market" every weekend.

Website – www.weaversmarine.net
Check out our updated website with many new pictures and links.

Pets – there is a plastic bag dispenser (on the side of the RYC clubhouse), for cleaning up after your pet.
